

Naman Shahi

Resource Management & Solutions

Delivering excellence in environmental compliance, civil infrastructure, and specialized engineering solutions across India.

A DECADE OF TRUSTED SERVICE

Who We Are

Our Foundation

Naman Shahi Resource Management & Solutions is a multidisciplinary firm with over **10 years of operational excellence** in environmental compliance, civil construction, and specialized pipeline systems. We serve corporate clients, government agencies, and builders across India.

300+

Projects Completed

50+

Major Clients

10+

Years of Service

Environmental Compliance & Regulatory Approvals

Pollution Control Board NOCs

End-to-end assistance in obtaining Consent to Establish (CTE) and Consent to Operate (CTO) from State and Central Pollution Control Boards for industrial and commercial projects.

Fire NOC Compliance & Approvals

Complete consultancy for obtaining Fire NOCs from local fire authorities — including documentation, fire safety scheme preparation, liaison, inspections, and timely renewals for buildings and industrial facilities.

CGWA & CGWB Compliances

Expert handling of Central Ground Water Authority approvals, groundwater abstraction permissions, and full compliance management with Central Ground Water Board regulations.

Compliance Monitoring & Reporting

Ongoing monitoring, audit preparation, and submission of statutory returns to ensure uninterrupted operations and zero regulatory penalties.

Rainwater Harvesting & Sewage Treatment

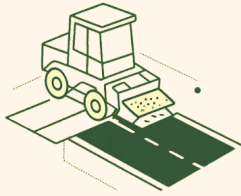

Rainwater Harvesting

Design and installation of comprehensive rainwater harvesting systems for residential complexes, industrial facilities, and institutional buildings — aligned with CGWA mandates and local bylaws.

Sewage Treatment Plants (STP)

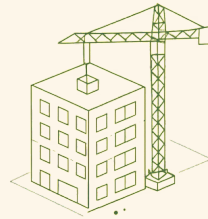

Turnkey STP solutions including design, supply, installation, and commissioning. We handle systems ranging from small residential units to large-capacity plants for commercial and industrial clients.

Civil Infrastructure & Construction

Road Construction

Execution of road works under PMGSY, municipal contracts, and private developments — from subgrade preparation to final surfacing.

Residential Structures

Full-scope civil construction for residential complexes, including foundations, structural framing, and finishing works.

Commercial & Office Structures

Design-build solutions for office complexes, commercial hubs, and institutional buildings meeting structural and safety standards.

Pipeline Systems & Fire Safety

Fire Safety Pipeline Networks

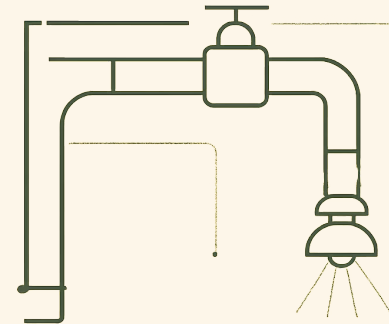

Specialized design and installation of fire hydrant systems, sprinkler networks, and fire water storage systems compliant with NBC and local fire authority norms.

Pneumatic Pipeline Systems

Engineered pneumatic conveying systems for industrial applications — ensuring efficient material transport with minimal operational downtime.

Industrial Pipeline Infrastructure

End-to-end pipeline solutions for process industries, power plants, and large-scale manufacturing facilities.

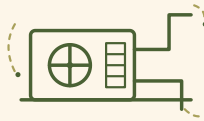

Clean Rooms, HVAC & Pre-Engineered Buildings

PUF Panel & Clean Room Works

A clean room is a sealed, controlled space where airborne particles, temperature, and humidity are held within strict limits — essential for pharma, food processing, electronics, and hospital operation theatres.

HVAC Works

HVAC governs air quality, temperature, and circulation inside a building. Correct design keeps hospitals, hotels, and industrial plants compliant and comfortable while controlling running cost for decades.

PEB Shed Works

A Pre-Engineered Building is a steel structure fabricated in a factory and bolted together on site — giving column-free interiors, rapid erection, and lower foundation and maintenance costs.

Sectors We Serve

One partner for compliance, water, fire, and specialized engineering — solving the problems that hold projects back.

Builders & Developers

Rainwater harvesting, STPs, fire hydrant systems, and CGWA / Fire NOC approvals — everything needed for building permissions, completion, and occupancy certificates, handled under one roof.

Industries & Manufacturing

MPPCB Consents (CTE/CTO), CGWA NOCs, ETP/STP systems, water monitoring, industrial pipelines, and PEB sheds — keeping plants compliant, operational, and penalty-free.

Hotels & Hospitality

STP solutions, rainwater harvesting, fire safety systems with Fire NOC, and HVAC works — meeting statutory norms while protecting guest safety and comfort.

Hospitals & Healthcare

Clean room and PUF panel works, medical-grade HVAC, fire hydrant & sprinkler networks, STPs, and complete regulatory compliance for uninterrupted patient care.

Our Impact at a Glance

300+

Projects Delivered

Successfully executed across multiple sectors and geographies

50+

Major Clients

Including corporates, PSUs, government bodies & builders

10+

Years of Service

A decade of consistent delivery and client trust

100%

Compliance Record

Zero penalties across all regulatory engagements

Trusted by Industry Leaders

Our client portfolio spans leading corporates, government agencies, and infrastructure organizations across India.

Why Choose Naman Shahi?

Regulatory Expertise

Deep knowledge of PCB, CGWA, CGWB, and Fire NOC frameworks ensures faster approvals and zero non-compliance.

End-to-End Execution

From design and approvals to construction and commissioning — a single point of accountability.

Government & Corporate Ready

Proven track record with PSUs, municipal bodies, and large corporates across sectors.

Based in Bhopal, Serving India

Central India's trusted partner with pan-India project execution capability.
